

# NEW SHELLAC!

CND<sup>®</sup>  
Hands. Feet. Beauty.

## THE WORLD NAIL CRISIS IS OVER!

**Shellac** is CND's breakthrough new product that is set to revolutionise the nail industry and is anticipated to create great excitement around the globe. Shellac features never before seen patent-pending **UV<sub>3</sub> technology** that combines the ease of polish with the permanence of gels. A true innovation in chip-free, extended-wear color.

This visionary new product category is the first truly hybrid nail color. **Shellac** applies like polish - no pots - just a bottle and brush. And removal in just 10 minutes! REALLY!! No filing. No drills.

**Shellac** is UV cured, so there's zero dry time. It's thin and flexible like polish, so it not only looks natural - it provides strong natural nail protection.

The results? Say good-bye to nicks, chips and smudges.

**Say hello to 14-day, glorious, high-gloss shine that is truly addictive.**

CND is also releasing an all **NEW UV Lamp**, this ergonomic UV Lamp is powerful, versatile and phenomenal value! This serious time-saver accommodates 5-finger cure and pedicures, is fully programmable and works perfectly with the Brisa™ Gel System.

**Available late May 2010, exclusively at your local authorised CND distributor. For more information, contact Pacific Nail & Beauty:**
